Press release**Bafang Receives China's First UK Conformity Assessment Certificate**

UKCA certificate awarded to Bafang for its M200 Central Motor Drive System, the first to be presented to the Chinese e-Bike industry.

On March 30, 2021, Bafang Electric (Suzhou) Co., Ltd. (Bafang) received a UK Conformity Assessment Marking (UKCA) from TUV SUD Certification and Testing (China) Co., Ltd. (TUV SUD), an international third-party testing, inspection and certification institution. It indicates that Bafang's Central Motor Drive System M200 (M200) conforms to the latest market access requirements of the UK. It is also the first UKCA certificate issued by TUV SUD to China's e-Bike industry.

The UKCA certificate requires that EMC test results of products meet the requirements of EN61000. Electromagnetic compatibility (EMC) refers to the ability of a device or system to operate in its electromagnetic environment without causing intolerable electromagnetic interference to any other device in its vicinity. With superior anti-electromagnetic and anti-interference abilities, Bafang's M200 ensures that it will neither affect the use of other electronic products during its operation, nor lose control due to strong electromagnetic radiation and interference around it, thus providing a safety guarantee for daily cycling.

In addition, as an entry-level e-City bike product independently developed by Bafang, the M200 is stable, quiet and economical, suitable for e-City bikes and highly popular among OEMs and brand owners. Over the past two years, Bafang's R&D team has been continuously innovating, optimizing the structure of the M200's motor transmission parts and achieving almost total silence, without affecting the 250W power output of the motor and strong performance of the system.

The UK withdrew from the EU common market officially on January 1, 2021. At the same time, the UKCA certificate officially replaced European CE marking and became a new UK product safety mark. According to UK regulations, UKCA marking will come into full effect in January 2022, with both CE marking and UKCA marking recognized in the transitional period. For

Chinese manufacturers engaged in export to the UK market, this change will undoubtedly have some influence on their business expansion in the UK and the EU.

In this respect, Mr. Jiang Huiping, director of Bafang Marketing & Sales Center, said, "The UK is one of the most important and promising markets of Bafang in Europe. Receiving the first UKCA certificate is of great significance for Bafang to further develop its business in the UK market and expand its overseas business. Over the years, Bafang has been committed to providing consumers with safe and high-quality products. In the future, we will continue to set a good example in the industry with high quality and standards, and strive to become No. 1 in more areas, with quality as the cornerstone."

Attestation of Conformity

No. E8AUK 079464 0092 Rev. 00

Holder of Certificate: Bafang Electric (Suzhou) Co.,Ltd
No.9 Heshun Rd
Suzhou Industrial Park
215122 Suzhou
PEOPLE'S REPUBLIC OF CHINA

Name of Object: Electric bicycle drive
Central Motor Drive system M200

Model(s): MM G210.250.C + CR X210.350.FC + SR PA450.32.ST.C + SR SD021.01 + DP C11.CAN

Description of Object: Rated voltage: 36V DC
Rated power: 250W

Tested according to: EN 61000-6-3:2007/A1:2011
EN 61000-6-1:2007

This Attestation of Conformity is issued on a voluntary basis according to the Electromagnetic Compatibility Regulations 2016 relating to electromagnetic compatibility. It confirms that the listed apparatus complies with all essential requirements of the regulation and is based on the technical specifications applicable at the time of issuance. It refers only to the particular sample submitted for testing and certification. For details see: www.tuvsud.com/ps-cert

Test report no.: 4830021225300

Date, 2021-03-30

About BAFANG: www.bafang-e.com

Bafang, one of the leading manufacturers of e-mobility components and complete e-drive systems, has been developing components and complete systems for electric vehicles since 2003. Bafang is listed on the Shanghai Stock Exchange (603489.SS).

The company focuses on all global e-mobility trends of the future: be it as an individual e-bike, e-scooter, or for public bike sharing schemes. Bafang employs about 700 staff worldwide in five locations. The head office, development and manufacturing center are based in Suzhou, near Shanghai.

Bafang has Sales and Service Centers in the Netherlands, in the USA, in Germany, in Japan and in Taiwan, China. The newly opened factory in Poland will focus on production of mid motor systems for the European markets.
