Press release**Bafang Receives China's First UL 2849 Certificate for Mid Motor**

The manufacturer of e-drive systems is the first in China to receive the UL certification for e-Bikes for a mid motor.

On February 9, 2021, Bafang Electric was awarded the UL 2849 certificate, the first mid motor UL certificate in China. The certificate awarding ceremony was held both online and offline. Mr. Qinghua Wang, Chairman and General Manager of Bafang, Mr. Xiukun Yu, Vice President of UL, and senior staff from both sides attended the meeting to witness this significant moment together.

The electric bicycle industry has been booming in recent years. As the first electric drive system manufacturer in China to pass the UL 2849 test and become certified, Bafang has received a green light to enter the North American market and beyond. UL certification, focused on ensuring quality and safety in a wide range of products, showcases product quality, enhances confidence in a brand and helps to win consumers' trust. The UL 2849 certification for e-Bikes contributes to the overall development of the global electric bicycle industry.

During the ceremony, Mr. Qinghua Wang delivered a speech: "We are pleased to be the first company in China to receive the UL 2849 certificate for mid motor. Bafang's goal is to produce innovative, high-quality products for our customers and offer a comfortable riding experience. We will face up to every challenge, strive to develop new and innovative products, and set a new benchmark for the industry."

The UL-certified mid motor will be launched together with the new DIY M625 and M325 drive systems, planned by Bafang to provide consumers with products and services tailored to their individual needs.
